

GLOBAL PRAYER STRATEGY

The Resurrection Movie

The global prayer strategy we are engaged with has its genesis's in the evolution of the global prayer movement, which for us has been centered on the concept of global gates. These have traditionally been identified as emanating from the centres of global authority defined through such organizations as the United Nations, the Economic World Forum, the G8, the World Health Organization, The International Monetary Fund and other such organizations.

We have been engaged with these organizations since the early 2000s rallying churches, business leaders and ethnic groups to pray and worship in conjunction with the scheduled meeting of the individual organization. The concept is to change the hearts and minds of the world leaders attending these events such that God's purposes are unfolded through decisions made that will affect the destiny and purpose of nations. Scripture tells us that the heart of the king is like water in the hands of the Lord....He turns it this way and that for His purposes.

Since engaging with and through these events, we have met and collaborated with kingdom world leadership organizations and with secular organizations to the extent we have established a global network of relationships through many nations of the world. It is from these and many other connections that we have developed a global network to be used for the purposes of the Resurrection movie. Over the past few years we have come to understand that the global gates of authority influence is not just resident in the static global gates we had been focussed on but rather also included the influence of Hollywood and the entertainment industry that is so prevalent throughout most, if not all, of the world. Today we realize that all the work we have been doing may well have had the purpose of telling the kingdom/biblical story at the heart of it all through the global gate of Hollywood.

Our strategy has developed out of longstanding relations with other kingdom ministries throughout the nations. It will be unfolded as follows:

1. There are key international ministry leaders (10-12) who hold authority and presence throughout the nations that will be contacted to represent the principles defined by our vision and to pray for our initiative and follow up on the evangelism component of our vision. Many of these are already in place and have committed to partnering with us to complete the vision.
2. We have developed a strategy of using ministry agreements to formalize our relationship and to allow the ministry involved to invest in the project through "ministry equity" rather than financial contribution. This would result in ensuring their commitment to the project, assisting in spreading the vision and also allow them to benefit financially from the profits that will result from the movie.
3. We will have the world divided into international regional sections with a global ambassador assigned to spearhead initiatives in each of the national areas. The concept of this has already been defined although individual leadership has not yet been assigned. This will ensure local

cultural concerns are cared for and establish a manageable approach to spreading the vision for the movie across the world.

4. We have already established global social media attention and connectivity with leadership individuals and organizations with many across the nations. We have repeated invitations to speak and spread our vision to many parts of the world. We are establishing local “spiritual ambassadors” in this process who will link us into local authorities and assist in arranging for engagement when we are in a position of being able to carry forward with our efforts in a formal manner.
5. Our connections with leadership organizations is vast and inclusive. It includes involvement with the largest of African prayer networks (i.e. Enoch Adeboye Redeemed Christian Church engaged with individual prayer meetings averaging 6-8 million people and culminating with attendees of over ten million in a single service), the China underground church movement with followers in the tens (perhaps hundreds) of millions, the middle east prayer movement that although hidden has major influence in that region of the world, direct and established connections with the largest Messianic Church in Israel along with very good government connections at the highest levels, the Europe church movement including the largest evangelical church in that region of the world, connections to the major influencers of the Australian/New Zealand church and prayer organizations, connections throughout India and surrounding area, committed connections with Latin America/Mexico and of course many established connections with the major organizations and churches throughout North America. Although much work remains to be done in uniting these nations through the Resurrection vision, the groundwork has already been established for future engagement and commitment.

Although the task is enormous and perhaps has never been attempted in this fashion we believe the foundations that have been laid bode well for establishing one unified effort towards evangelism and kingdom growth through the Resurrection movie. We are excited for the possibilities that can emerge from the movie project and believe our strategy will result in millions, perhaps billions, coming to know the knowledge and saving grace of Jesus Christ.
